The sports medical check is **mandatory for all athletes** who wish to obtain a **competition license** from a sports federation, except for certain sports disciplines which are exempt.

Depending on the degree of need for medical supervision, sports activities are classified into different categories.

At the first examination for the issuance of a licence, only athletes who are at least 7 years old or who will turn 7 during the year are accepted.

[Amended Grand-Ducal Regulation of 23 December 2016](#) concerning the compulsory sports medical control of active licensed members of approved sports federations

Appointment booking via *Guichet.lu*

Athletes can make an appointment in the seven state-run sports medicine centres and in approved medical practices, which make their agenda available via *MyGuichet* from 1 July 2024.

Athletes can find information related to the procedures concerning the sports medical control on [Guichet.lu](#) (access path: Leisure > Reception > Sports activities > Practice of a sports activity > Sports medical control > Online services > Online appointment request for the sports medical control (for athletes)).

Sports club managers can also set up an appointment for their members, but also check the sporting skills of their members.

Beforehand, they must create their professional space and have it certified by the Sports Medicine Division of the Ministry of Sports. This can be done via *Guichet.lu* (access path: Accueil > Loisirs > Sports activities > Practice of a sports activity > Sports medical control > Online services and forms).

Request an appointment by phone

Appointments for **regional sports medicine centres** can be made by telephone on working days between **8:00 and 11:30 a.m.** with the Ministry of Sports agents on the following numbers only:

- (+352) 247-73444

Appointments can be made at **medical practices** approved by the Ministry of Sports at the respective medical practices.
